

York Harbor, FNP Dredging, York, Maine  
Haul Route Notification

The New England District of the US Army Corps of Engineers will be dredging sections of the both the channel and anchorages of the York Harbor Federal navigation project (FNP) in York, Maine. Dredging operations will commence on or after November 1, 2017. The dredged sediments will be placed at the Cape Arundel Disposal Site located approximately 2.8 Nautical Miles southeast of Cape Arundel.

The dredging contractor is being required to use a specific Haul Route when transiting to and from the dredged material placement site. The contractor's designated Haul Route (dated October 2, 2017) is posted on the Corps' web page at:

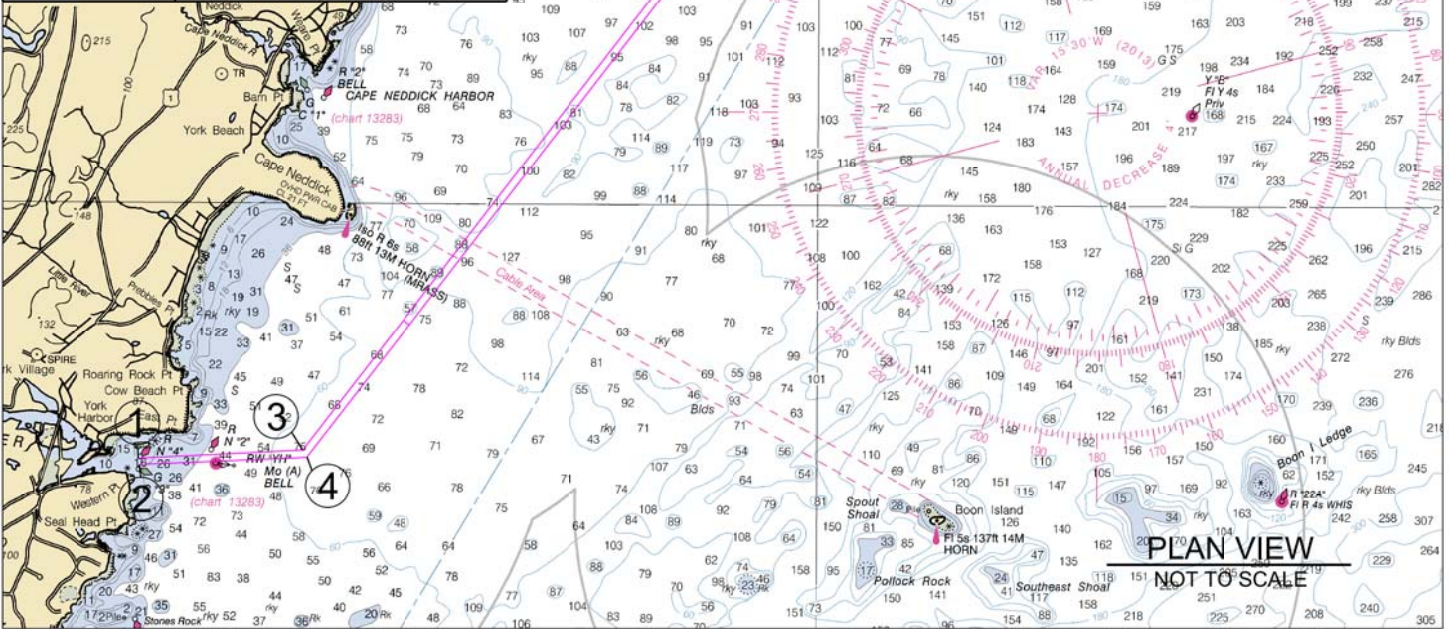

[http://www.nae.usace.army.mil/Missions/Projects-Topics/York\\_Harbor/](http://www.nae.usace.army.mil/Missions/Projects-Topics/York_Harbor/)

All fishing gear must be removed from within the specified haul route to avoid damage to or loss of fishing gear due to dredged material disposal operations.

Individuals seeking additional information regarding this project or having inquiries regarding the loss of fishing gear suspected to be the result of dredged material disposal may contact Mr. Matthew Tessier, the Corps Project Manager, at (978) 318-8248.
